

BS-105X-MRW

Wired Magnetic Sensor

Features

- Wired magnetic sensor with a built-in Reed switch enclosed in a waterproof ABS Plastic enclosure for more safety.
- The Magnetic sensor with the high-speed reed switch ensures, the optimum sensitivity and stability.
- The sensor can be installed in all kind of cabinet, windows and doors.
- The Sensor is compatible with KNX BI Module.

General Specifications:

Sensor Type	Magnetic Contact Switch with Built in Wires
Installation	Recessed Mounted
Available Colors	White – Brown – Black
Operating Distance (Gap)	15~25mm
Material	ABS
N.O. Connecting Model	BS-105O-MSW
N.C. Connecting Model	BS-105C-MSW
Model Number	BS-105X-MSW
Dimensions	Dia 13.3 X 14Lmm

Technical Specification:

Max. Switching Current	0.4 A
Max. Switching Voltage	110 Volt DC
Max. Contact resistance	200 mΩ
Communication Protocol	N/A - (Dry Contact Only)
KNX Module	Compatible
Lifetime	Up to 1,000,000 cycle
Operating temperature	-10°C ~ +60°C

APPLICATIONS

Door/Window Sensor Limit Switch
